Uppsala, 26 – 28 June 2018

Provisional Programme

Supported by

ISOE European Symposium

Uppsala, 26-28 June 2018

The European Technical Centre of the Information System on Occupational Exposure (ISOE) is pleased to organize, in collaboration with and the support of Vattenfall and the Swedish Radiation Safety Authority (SSM), the 2018 ISOE European Symposium on Occupational Exposure Management at Nuclear Facilities.

The Symposium will be held in Uppsala, Sweden, from the 26th to the 28th of June 2018. It is co-sponsored by the OECD Nuclear Energy Agency (NEA) and the International Atomic Energy Agency (IAEA).

The Symposium is targeted at all those concerned with radiological protection at nuclear power plants: radiation protection managers and staff members, maintenance and operation planners, contractors, exposed workers, regulatory body representatives and international organisations. It is also opened to research reactors and professionals from other nuclear fuel cycle installations sharing common radiological protection issues.

Dealing with occupational radiation protection at the design, operation and decommissioning stages of installations, as well as accident situations, this new meeting point of radiation protection professionals under the heading of ISOE will be a great opportunity to share, at the international level, experiences and practices favouring a continuous improvement of radiation protection.

Furthermore, the accompanying Technical Exhibition will give participants the opportunity to see the latest developments from industrial and commercial companies active in fields of radiation protection.

Prior to the Symposium, on Monday 25th of June 2018, two meetings devoted to specific audiences have been organised:

- A Radiation Protection Managers meeting
- A Regulatory Body Representatives meeting

Finally, a technical visit has been organised to Forsmark NPP site on Friday 29th of June 2018 that will give you the opportunity to see the SKB depository for low and intermediate waste, the mobile logistic center intended for emergency situations as well as a to visit unit 3 controlled area.

We are looking forward to welcoming you in Uppsala,

Caroline SCHIEBER
Head of ISOE-ETC
On behalf of the Programme Committee
